THE WEATHER
Unsettled tonight and Tues-
day. Probably snow. Not much
change in temperature.

VOLUME XV

THE CLEARFIELD PROGRESS, CLEARFIELD, PA.,

TUESDAY EVENING FEBRUARY 1, 1921

NUMBER 155

TOMB UNDER NATIONAL CAPITAL OR IN ARLINGTON CEMETERY WILL HOLD BODY OF UNIDENTIFIED WAR HERO

WASHINGTON, February 1—A tomb built under the rotunda of the capital for the body of George Washington will be used to hold the body of an American unidentified soldier of the world war. Hearings were started in Congress today on bills to provide for the removal of a body of an unidentified soldier to be placed either in the national capital or in the national cemetery at Arlington as an appropriate tribute to the heroes of the war. General Pershing will be the first witness and it is understood that he will urge Congress to take this action. Bills providing for such an interment with elaborate ceremonies have been introduced.

WASHINGTON, February 1—A ceremony participated in by every person in the United States when an unknown soldier of the World War is buried in Arlington Cemetery was recommended today by General Pershing. He appeared before the House Military Affairs Committee considering the bill introduced by Representative Fish of New York.

"When an unknown soldier is buried here," said Pershing "everybody throughout the United States might pause for half an hour and pay silent tribute by prayer and meditation to the men who died in the world war." Pershing said a battleship should be sent to France with officers of the general staff to bring back the body, and that the President and high officials should conduct the ceremonies.

PENNSYLVANIA HIGHWAY BOND ISSUE IS TO PAY SIX PERCENT INTEREST

HARRISBURG, February 1—The Senate today passed the Eyre bill authorizing the sale of State Highway bonds at the interest rate of 6 per cent. by a vote of 32 to 7. The bill was passed as amended upon the third reading. It originally provided for 4 1/2 per cent.

FOUR BURNED TO DEATH WHEN FREIGHT TRAINS COLLIDE NEAR NEWARK, OHIO

NEWARK, Ohio, February 1—Four men were burned to death and three others seriously injured when a freight train on the Penna. crashed into another freight standing on a siding here early today. The dead and injured are members of the train crew. The cars of the trains were telescoped by the collision. The dead are: William Williams, M. A. Peck, C. O. Rouch and John Zimmer. The injured will probably recover.

KIDNAPPERS OF WITHERELL WOMAN IN DANGER OF LYNCHING ARE GUARDED

LOS ANGELES, February 1—Fear of an attempted lynching caused police today to take special precautions in their guard over Floyd Carr and Arthur Watson Carr, confessed kidnapers of Mrs. Gladys Witherell. Extra guards were thrown around the county jail to prevent an attempt to remove the prisoners. Floyd Carr asked for a lawyer and said he could produce mitigating evidence. Mrs. Witherell who was kidnapped a week ago and held for ransom was rescued yesterday by the police who broke into a shack on a deserted ranch 70 miles from here.

BETHLEHEM SHIP COMPANY WILL MAKE 10% WAGE CUT

QUINCY, Mass., February 1—The Bethlehem Ship Building Corporation will put into effect a 10% reduction in wages effective February 14, it was announced today.

GRAND JURY WHICH WILL SERVE WEEK BEGINNING FEB. 7

Beatty, W. E., farmer, Bell township (Mahaffey)
Bloom, Samuel, farmer, Bigler (Madera)
Bowers, A. H., carpenter, Lawrence township (Clearfield)
Craig, Frank, operator, British.
Cramer, W. H., laborer, Burnside.
Doris, Clyde, farmer, Becerra (Greene)
Davis, Wilber, laborer, Decatur (Greene)
Goodlander, Charles, farmer, Brady (DuBois)
Green, J. A., justice of peace, Irona
Hanson, Joseph, miner, DuBois (Perryfield)
Hewitt, J. M., musician, Huston.
Hite, Harry, mail carrier, Pike (Curwensville)
Henry, Charles M., carpenter, Penn (Grampian)
Orvitt, Frank, farmer, Grampian
Phelot, John, farmer, Girard (Frenchville)
Reiter, John W., farmer, Karthaus
Rogers, A. R., clerk, DuBois.

KREBS—BRODBECK

Bruce L. Krebs and Miss Viola Alma Brodbeck, popular West Side young people, were married by the Rev. C. C. Snively at the West Side Methodist Episcopal parsonage, Wednesday, January 26. The young couple were attended by Mr. and Mrs. Luther Krebs.

Grant Snyder, West Front street, was called to Leran, O., to attend the funeral of his niece, Ruth Hoover, who died very suddenly Saturday afternoon. She was the third daughter of Harry Hoover, who formerly was a resident of Clearfield.

Mrs. Orrle has returned to her home in East End after spending a few days with her sister, Mrs. William Traxell, of Mahaffey.

Snyder, J. Clark, jeweler, Clearfield.

Shaffer, Joseph, farmer, Lawrence (Clearfield)
Shearer, John W., buffer, Curwensville.

Walker, Harry, clerk, Clearfield
Wood, James S., fireman, Decatur
Weaver, C. A., minister, Boggs (West Decatur)
Witte, Dennis, miner, Woodward (Moran)

THE FAMINE IN CHINA

AREA

The five northern provinces, Chili, Shensi, Shansi, Honan and Shantung, are all affected. The actual famine zone covers 100,000 square miles with a population of 45,000,000 Chinese. Nearly one and one-half years of continuous drought, during which the normal rainfall has decreased from 25 inches a year to less than 3 inches.

CAUSE

NUMBERS

45,000,000 Chinese are directly affected; 15,000,000 are facing immediate starvation and will die without our help; 10,000 are already dying daily.

WHAT IT MEANS TO CHINA

The famine, unless halted by American relief, means the break-up of civilization in North China; in fact the complete collapse of a vast region commercially, economically and morally, which is certain to persist for a generation to come.

WHAT IT MEANS TO AMERICA

An opportunity to help a friendly nation in distress, to strengthen existing ties, to expand our trade and to have the consciousness that we have saved the lives of 15,000,000 human beings who would have died without our help.

THE NEED

To feed, and save lives:
3c will save one life one day
\$1 will save one life one month
\$5 will save one family one month

HOW TO GIVE

Make your contribution thru any one of the Clearfield Banks:
CLEARFIELD NATIONAL BANK
COUNTY NATIONAL BANK
CLEARFIELD TRUST COMPANY

WHY GIVE

China is in the grip of the worst calamity in history. She turns to us as her oldest and richest friend, whom she has learned to trust. We cannot ignore her call and let these helpless people die without an effort to save them.

SAVE A LIFE IN CHINA!

JUDGE LANDIS HAS BIG JOB AHEAD IN HANDLING BASEBALL

By HENRY L. FARRELL
(United Press Staff Correspondent)
NEW YORK, Feb. 1—Judge Landis is getting \$42,500 a year for steering baseballs craft.

He has a seven-year contract. With the \$7,500 that he gets for being a federal judge, the economic sharpshooter he should come out of it with close to \$297,500.

Pessimists who still scent last October's odor have two comments to make on the Judge and his future in baseball.

"He won't last more than a year. He's too big a man to be bothered with the magnates, even for a fortune," some say.

"If he lasts seven years, he'll earn every cent he gets," the others predict.

No one is questioning the Judge's ability to handle such a complex proposition but some are doubtful of his patience.

No one has accused the barister of being mercenary, because he trimmed down the original offer of \$50,000 and the market price for executive ability and brains of his type is much higher in commercial or industrial circles.

Judge Landis is absolutely fearless, as his record on the bench shows and furthermore he is not afraid of his new job.

Some of the pesky hurdles that he will have to go over is his dealing with the recent joint league meetings in Chicago.

When Judge Landis was offered the position as baseball commissioner he was assured of a free rein in handling all diamond affairs. In his own words, they "told the world" that he was to be supreme.

He signed the contract on this understanding.

Yet, the first thing the magnates try to do is to curtail his power and make him a mere tool by changing a word in the original agreement.

Instead of permitting him to "act" against all offenders, the generous magnates changed it to allow him merely to "recommend" action.

The Judge was the first one to detect the alteration and he gave the magnates fifteen minutes to strike out the word or get a new commissioner.

It has not been clearly established who recommended the "tolling" change in the agreement but the National League representatives refuse to take the credit Bar Johnson is accused of the attempt, but no official finger has been pointed at him.

Perhaps this bold assertion of authority will irritate the magnates and they may remain in the "act" ground and let Judge Landis run the

NATIONAL WOMEN'S PARTY POLICY IS TO BE DISCUSSED

WASHINGTON, Feb. 1. (United Press.)—Whether the National Women's party continues as a separate political group will be decided by 1,000 delegates representing every state in the nation when they meet here Feb. 15.

Prime consideration in the decision, officials said in commenting on the convention's program is whether the existing parties have made sufficient bid for support from women voters. The third day's sessions will be given over to reports of spokesmen from the Republican, Democratic, Socialist and Farmer-Labor groups.

The meeting will be the first national gathering of women voters since ratification of the nineteenth constitutional amendment.

Important places on the program have been given to representatives of women's organizations to report on progress in organizing women in America and abroad. Among bodies to report are the W. C. T. U., National Consumers' League, Business and Professional Woman's League, Woman's International League, Children's Bureau and the Woman's Bureau of the department of labor.

Miss Sue White, national research chairman for the party, also will report findings in her nation-wide survey that inquired into alleged injustices and discrimination against women found in various state laws. The report is being compiled through assistance of women lawyers and after exhaustive study of state and federal laws.

Picture-que ceremonies have been planned, including presentation exercises for the monument to the pioneer suffragists Susan B. Anthony, Elizabeth Cady Stanton and Lucretia Mott, which will be given to the Capitol rotunda. Another will be the pageant of women of all nations and still another award of "distinguished service medals" to former pickets.

NOON STOCKS
New York—Twelve o'clock prices on the stock exchange today were:

American Smelting, 42 3/4; Anaconda, 39 1/2; Baldwin Locomotive, 58 3/4; Bethlehem Steel B, 56 3/8; Canadian Pacific, 116 1/2; Corn Products, 71; Crucible Steel, 92 1/2; General Electric, 128; General Motors, 14 3/4; Lachawanna, 53 7/8; Maxwell, 5 1/2; Middle States Oil, 44; Missouri Pacific, 18 3/4; Oklahoma Producers, 3 1/4; Penna., 40 5/8; Republic Steel, 66 1/2; United States Steel, 82 1/4.

Those who know baseball magnates figure that the town will be made a little less green chess before this happens.

GO TO IT, GEORGE

Paris, Feb. 1.—Georges Carpentier will become France's aluminum king before he attempts to be the ruler of the world's heavyweight fighters. He announced today he would go into the ring against the high cost of living and build a factory to manufacture aluminum kitchen utensils with a 100 per cent reduction from the present market prices.

MALACHI KRATZER DROPPED DEAD AT STATION THIS A. M.

Malachi Kratzer, a native of Centre county, but who has lived in this section for a number of years, dropped dead this morning at the Pennsylvania station on Third street while waiting the arrival of the 8:20 o'clock train.

The deceased, who made his home on the West Side since the death of his wife near Montgomery, a couple of years ago, was about 77 years of age. He was an industrious, upright man and a good citizen.

His body was taken in charge by Undertaker Thompson and prepared for burial after which it was taken to the home of Mr. and Mrs. David Williams on Nichols street, where Mr. Kratzer had been making his home and the funeral will be held from there Thursday afternoon.

He is survived by one daughter, Mrs. Grant Gingers, of Lawrence township. One sister, Mrs. Fred Schuurs, of Surveyor, also survive him.

H. B. SWOOPRE REWARDS FIREMEN

Secretary Spangler of the Clearfield fire department received a check for \$100 yesterday from H. B. Swoopre, of Madera. In the letter which accompanied the donation Mr. Swoopre expressed his appreciation of the prompt response of the Clearfield firemen to Madera's appeal for aid on the occasion of the recent conflagration which swept the business section of the town.

The Clearfield firemen did not arrive on the scene in time to be of any service but Mr. Swoopre appreciated their willingness to be of service just the same.

KING—CUMMINS

Charles E. King and Ethel E. Cummins, of DuBois, were united in marriage January 21 by John M. Baer, justice of the peace.

Try a Want Ad.

ATTERBURY'S PLEA FOR ABROGATION OF WAGE AGREEMENT TO BE SCORED BY BROTHERHOOD LEADER AT HEARING

CHICAGO, February 1—A conspiracy to crush the railroad brotherhoods in an effort to drive down wages will be charged before the United States Railroad Labor Board today. Bert Jewell, head of the railroad employees of the American Federation of Labor is scheduled to appear before the board to answer the demands of the railroads that the national wage agreement be abrogated. Jewell will also charge that the railroads are in financial difficulties because of mismanagement and inefficiency.

W. W. Atterbury, Vice President of the Pennsylvania lines and spokesman for the railroad yesterday asked the board to set aside the wage agreement. He said that \$300,000,000 a year could be saved in this manner and promised that no general wage cut would be made for 90 days.

Jewell's telegram asking investigation of the managers of the railroads was sent to President Wilson today. The telegram said Atterbury was attempting to take advantage of the temporary business depression to reduce rates in pay. He said Atterbury was drawing up an ultimatum to the board "violating" all decent proprieties.

FORD A FINANCIAL CZAR IN DICKERING WITH THE BANKERS

By Karl A. T. J., general news manager of United Press.
(Copyright 1921 by United Press)

Detroit, Mich., Feb. 1.—Henry Ford today believes "he is sitting on the top of the world." In the seclusion of his home on Dearborn street Ford is planning proposals to meet the change in the industrial world which he believes will come with innovations which will startle the business world more than he did eight years ago.

Henry Ford is far from bankrupt. The gigantic \$200,000,000 Ford Motor Company is not in any danger of being taken over by the General Motors Company. There will be many changes in the personnel of the high executive staff of the Ford company soon. There will be no representatives of "Wall Street" sitting in its directorate with the veto power over Ford's expenditures. Ford is in the market for more money, but only at Henry Ford's own terms. Six proposals have been made from New York and Boston financial groups. Some have been made by a New York bonding house. A proposal is expected from Michigan financiers within the next few days. A proposal made by a New York house resulted in its representative being curtly offered his hat and shown the door. Another proposal for an issue of \$100,000,000 15 year eight per cent bonds to be sold at par and to net Ford 98 1/2 was likewise rejected. Ford is in no hurry to close a deal.

If anyone for financial or racial reasons should attempt a "squeeze play" Ford knows he could simply close his factory until conditions adjust themselves to suit him. There is no doubt but that Ford's propaganda against Jewish international bankers has aroused antagonism in Jewish quarters and have a tendency to aggravate the situation but Ford is ready to meet this antagonism. He expected it. These are the two phases in the greatest industrial and financial plot ever developed by a single individual enterprise.

Most of the wild stories of the last few weeks haven't even been heard by Ford. It reveals that the people do most of the worrying for Henry Ford. Most of the rumors have passed over his head. He does not know of the existence of a greater part of them. He is the most secluded man in America. The pope in his vatican and President Wilson in the White House are not even as successful in surrounding themselves by a wall so impregnable against all comers.

Andrew Johnson, of Glen Richey, left today for Detroit, Mich.

MAN AND WOMAN DIE TOGETHER IN HIS APARTMENT ROOMS

Pittsburgh, Feb. 1—Accidental death was the opinion of the county coroner investigating the death of H. C. Carlisle, aged 38, and Miss Jennie Easley, aged 30, found dead in a gas filled room in their apartments. A lighted gas stove in the room is believed to have discharged poison monoxide fumes causing asphyxiation. The woman was identified by her father, J. B. Easley, of New Kensington. Carlisle's body has not been claimed. The two bodies were found by the proprietor of the house after he smelt the gas fumes and entered the apartment to investigate. According to Thomas Hogan, proprietor of the apartment, Carlisle has been out of work, but was not despondent and appeared to be in the best of health. Hogan also said that Carlisle and his wife had taken the apartments several weeks ago but the week following they quarreled.

Miss Easley, according to her father, left New Kensington last Saturday announcing she was going to visit a sick friend in a Pittsburgh hospital and when nothing was heard from her he became alarmed but thought she was probably with friends. Although Carlisle is said to have been married no one has claimed his body at the morgue as yet.

Miss Easley, according to her father, left New Kensington last Saturday announcing she was going to visit a sick friend in a Pittsburgh hospital and when nothing was heard from her he became alarmed but thought she was probably with friends. Although Carlisle is said to have been married no one has claimed his body at the morgue as yet.

TODAY IN CONGRESS

In the Senate

Fifteenth day of the tariff filibuster. Naval Affairs Committee considers resolution for naval holiday. Manufacturers Committee continues hearings on coal bill. The judiciary subcommittee hears charges against Attorney General Palmer's conduct of "red" raids. The banking committee considers the savings bank bill. The agriculture committee considers appropriations bill.

In the House

Begins consideration of the army appropriations bill. General Pershing testifies before the House Military Affairs committee on the bill to return body of an unidentified soldier for burial in the Capital or Arlington Cemetery. Agriculture committee continues consideration of packer regulation bill. Judiciary committee begins consideration of federal anti-littering bill. The shipping board committee continues its investigation of naval affairs and hears testimony of Admiral Washington, Chief of the Bureau of Navigation. Foreign Affairs Committee considers resolution calling upon the State Department for information as to trading with Russia.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The following article, or rather we may say a prophecy, appeared in a copy of the Clearfield County Times in the place, under date of September 1872. It was handed to me with request that it appear in Curwensville letter. The young people may read and form some conception of what this town missed in sending the lumber down the river. Many who will read the article, no doubt, never saw a log drive or a raft.

LOGS

During the past year there were "driven" out of Anderson Creek about forty million feet (40,000,000) of pine logs. A very considerable quantity, also, out of Chest creek and other streams emptying into the Susquehanna, above this place. We will at present only go into detail in regard to the logs of Anderson Creek. We will endeavor to show the amount of money that should be realized out of these logs, over and above what was received for them, by selling to parties who have them floated down the river to Lock Haven and Williamsport, and have them manufactured there. Quite a portion of these logs were sold to Eastern parties at an average of about ten dollars (\$10) per thousand feet, delivered at this place. We will now estimate the cost of driving, booming, manufacturing, and at Williamsport, making all expenses full high.

Price paid per thousand feet for logs here	\$10.00
Driving to Williamsport	.75
Booming	1.00
Insurance (optional)	1.00
Manufacturing	3.50

Total \$16.25

Now, boards manufactured from the very logs which we have mentioned, were sold this year at Williamsport, at an average of twenty-five dollars (\$25) per thousand feet, giving a net profit of about fifty-four (54) per cent. to foreigners, who purchased the logs from us. Say that but twenty million feet (20,000,000) out of the forty million spoken of, belonged to Clearfield County parties, we count an absolute loss (after deducting transportation of the manufactured lumber and all other possible expenses) of one hundred thousand dollars (\$100,000). At first thought you may think this a mistake, but we only ask you to take your pencil and make a careful estimate as we have done, and you will see we are (if wrong at all) below the mark. The above are plain statements of facts and when we look at these figures, which do not lie, and see this enormous amount of wealth passing away from us here, we should arouse to action and prevent it, which can be done with a proper effort. This one hundred thousand dollars (\$100,000) is the loss on Anderson Creek logs only, and only for one year. If you follow up this charity of ours for the past few years, taking into consideration the logs driven out of the Susquehanna put this place, you will readily see that we have given away over one million dollars (\$1,000,000).

The Bible tells us to "cast our bread upon the waters," etc., but we are not commanded to do so with our logs, and we hope our people will not so construe the passage we have quoted (as it appears we have been doing), hereafter. "This true the Scriptures cannot always be taken literally," but we must not in this case make such a free translation.

Out of the one hundred thousand dollars, above mentioned, Clearfield county receives not one dollar, but it is all given to manufacturers and processors abroad. We are willing to live and let live," and suppose eastern lumbermen can live without it, but if we must keep them they ought to be brought here, where we can have a personal supervision of the affairs.

We cannot manufacture this lumber without peeps, and to warrant the use of these we must have a record in order that we can ship it. When manufactured, this lumber is upon which rests all our commerce.

A clearfield county place would be a great revenue to the county, as it is a port of call for these logs. It is a pity that the Susquehanna and the river of Anderson Creek are not made a few towns possess, the river and the logs, and the county would be a great revenue to the county.

CIGARETTE

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

immense forests of timber, to say nothing about minerals, up the river extending into Indiana county and found all along the tributaries of the river, as well as on Anderson Creek and its tributaries must necessarily come to this place. Now, if we had a railroad through this place and up the river and Anderson creek, all this would be shipped in this way. Without any further argument it is plain to be seen that a railroad would alike be very beneficial both to the corporation and to people of the up-river and western portions of the county. To manufacture this lumber it would require a number of mills; to manage which, would increase the quantity of labor and cause emigration to our town; this again would increase business in all departments and make such a combination of capital and labor as would insure and promote the success of all. We will attempt at some future time to show up these interests more fully.

Mr. and Mrs. Lester Bartelle, are visiting at the home of Mrs. Bartelle's parents, Mr. and Mrs. John Blake.

Mr. Enos Bloom was taken quite ill on Friday last and at this writing is still unable to leave her bed room. She is the grandmother of Mrs. Dr. Erhard at whose home she is staying and just by the way, this is the only home in Curwensville under whose roof a four generation family are sheltered, viz: Mr. and Mrs. Enos Bloom, Mrs. Dr. Park, their daughter, her daughter, Mrs. Dr. Erhard and children.

Mrs. Henry Stockbridge has been quite ill for several weeks at the home of her daughter, Mrs. Burton Ammerman, on South side, but at this writing she is slowly convalescing.

Raymond Sipes, one of the foreman at Crescent Refractories brick plant, after a week's confinement to his home by illness, is now able to be out and around at his work again.

NEW MILLPORT

The Young Peoples' Society of Christian Endeavor of New Millport held a get-together social last Friday evening at the Lutheran parsonage. Plans were made for the betterment of the society and the community.

Pastor Dingman gave a reading on "Petering," which was well received. Others gave readings and recitations and music. Cake and ice cream was served.

At a recent business meeting the following officers were elected: President, Miss Ruth Bloom. Vice president, C. E. Erhard. Corresponding secretary, Mrs. E. Dingman. Recording secretary, Miss Erma Norris. Assistant recording secretary, Konia Bloom. Treasurer, Miss Marie Norris. Librarian, Miss Rachel Glasgow. If there is a county Christian Endeavor organization this society would like to hear from it.

No Question. "Hats," says the Times fashion correspondent, "are worn well on the head." We have always regarded this as the best place to wear a hat on—London Punch.

IT'S GOOD FOR CHILDREN

Mrs. C. F. Schwab, 1007 Fourteenth street, Canton, O., writes: "We use Foley's Honey and Tar for coughs and find it one of the best remedies on the market, especially for children's coughs, as it does not contain any drug that is harmful." Serious sickness often follows lingering colds. Hard coughing racks a child's body and disturbs strength-giving sleep, and the poisons weaken the system so that disease cannot be warded off. Take Foley's in time—Adv.

ODDS AND ENDS AND THINGS

By "Skinney"

Poor old Uncle Sam. He's always getting it in the neck. Here we have burglars and bootleggers owing the government \$44,000,000 in taxes on incomes "earned" during 1920 it was estimated at Washington today as the internal revenue bureau made ready to receive more than 5,000,000 returns for the calendar year just past. Gamblers owe Uncle Sam approximately \$80,000,000.

However, Commissioner Williams is not confident of collecting.

William G. McAdoo, when secretary of the treasury, ruled gambling winnings are income the same as other earnings.

Bootleggers, during 1920, are estimated to have made profits totaling at least \$600,000,000, while burglars are estimated to have netted \$500,000,000.

Some local fellows ought to be pretty well up on this list of income tax owners.

Some men sure are hard to please. Dr. Howard G. Case, a prominent Syracuse physician, who recently suffered injury in an automobile accident, has entered suit for \$40,000 damages against the woman responsible. Dr. Case alleges, for the affair the defendant in the case is Mrs. Jessie A. Mills, who was struck by an automobile driven by Case and suffered injuries for which suit has been brought against the doctor for \$15,000.

Dr. Case puts in a counter-claim for \$20,000 for the death of his wife and \$20,000 for his own injuries, at the same time asking for dismissal of the supreme court action brought by Mr. and Mrs. Mills.

He claims that Mrs. Mills by getting in the way of his auto near Chittenango was responsible for the accident. After striking Mrs. Mills, the physician's machine went into the ditch, killing Mrs. Case and badly injuring her husband.

The accident brought him a vision of heaven and led him to declare that he would devote his life to religious work.

His public declarations from church pulpits concerning his visit to the "other side" attracted international comment.

Dr. Case declared that, much as he missed his wife, he would not want her back from the heavenly place into which he had seen her pass. Further, he asserted that he was informed by a saintly personage who guided him through the Paradise that selfishness was responsible for his wife's passing.

Aside from the fact that a lot of other fellows are like Case and wouldn't have their wife back—if they could once lose them, regardless of where they went, this case is going to make further history in that it is the first time on record that an automobile driver knocked the demitition bowwows out of a poor unsuspecting pedestrian and then entered suit for damages for the accident. This sure is a mighty queer world with many mighty queer people in it.

Fat is suicidal, and the only way for sufferers from obesity to avoid an early death is to stop eating. This is the substance of an opinion from W. Atherton Du Puy, who sets himself up as an authority on fat and "fat heads." Mr. Du Puy says: "Fat comes from food. If you have too much fat you eat too much food. You can get rid of that fat if you eat less food."

"Personally, I am already convinced that complacency is the greatest curse of the age. It threatens the well-being of the race. It is unpleasant to the eye. It offends the artistic sensibilities. The possessors of most of it hate it worst. It smother's love, ambition, life itself. It is the modern plague."

"There have always been more people who suffer from an overindulgence in food, a thoughtful surgeon of the United States Public Health Service told me, than from the excessive use of alcohol—ten times as many."

First along comes the Eighteenth Amendment and dries up your drink and now this long-haired guy asserts we must all quit eating to preserve intact our manly beauty. What's the use? If we can't either drink or eat, we might just as well go from here. So Belzebub, fire up the guest hamper.

One of the "Columbs" old-time friends offers the following item: "That string band mentioned in Monday's Progress went with some other congenial spirits on a raft to

Lock Haven in the Spring of 1874. Captain David McGaughey and A. I. Shaw were in the party and had gone into the shanty for a rest. Cyrus Gordon and Dr. Van Valzah set fire to some straw in the shanty and went to the rear to peep through a crack to see what the sleepers would do when they awoke. The captain just turned around in the bunk and raised his big foot and with a mighty kick sent the board off just where the peepers were looking. Mr. Gordon had a very strenuous time getting the black and blue out of his face in time for his wedding which took place in a few weeks after that occurrence."

Some son-of-a-gun lost sight of the beam in his own eye long enough to inflict the following on us:

Editor Colyum:

If you and the editor have a few spare moments tomorrow you would do our town a great favor by taking that unsightly awning down from the front of your place of business.

"CIVIC PRIDE."

But his rain barrel hasn't been painted for several years. Meanwhile that awning is coming down.

Read The Progress.

Mrs. SELCHERT'S DAUGHTER

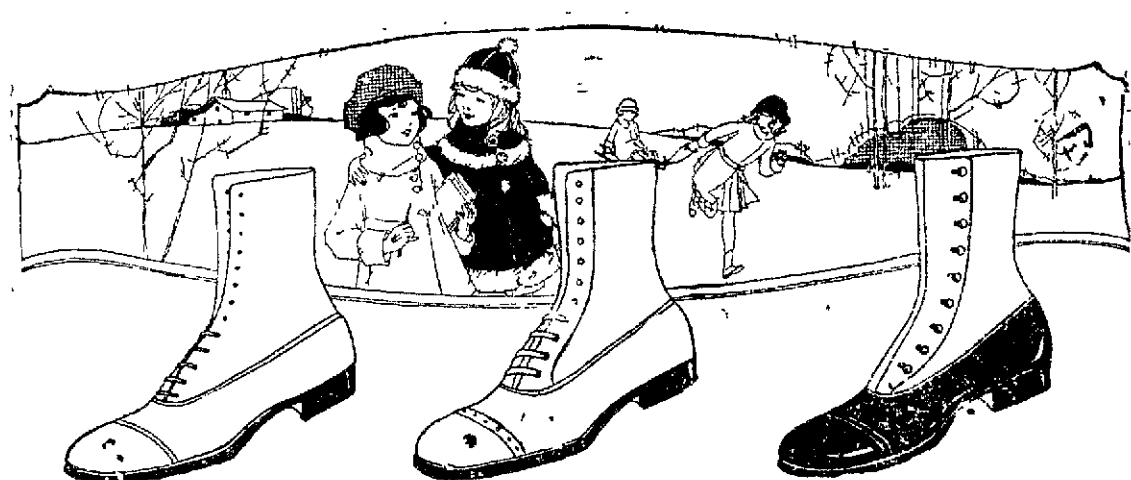

Was Restored to Health by
Lydia E. Pinkham's Vegetable
Compound

Horicon, Wis. — "My young daughter

had been troubled for several months with backache and a bad feeling in her stomach. When she got to the table to eat she did not want anything, while before she was so hungry she could hardly wait for her dinner. The doctors gave her medicine but it did not help her. One day I was reading a little book of yours which was left on my porch and it reminded me that when I was a young girl I took several bottles of Lydia E. Pinkham's Vegetable Compound. So she went to the drug store and got a bottle and after the second one she could eat and has not had backache since. In all she took six bottles of it. She goes to school and on Saturdays helps with the housework. She is a normal, healthy girl now and we recommend your medicine. You have my permission to publish this letter as a testimonial for the Vegetable Compound." — Mrs. FRANK SELCHERT, 150 Larabee St., Horicon, Wis.

Mothers all over the country have found Lydia E. Pinkham's Vegetable Compound to be a most reliable remedy for such conditions.

Bears and Telephone Poles.

Every telephone and telegraph pole in the remote districts of Norway has to be constantly watched on account of the bears, which have a mania for climbing the poles and sitting on the cross bars, swaying backward and forward until the pole falls.

Two Jugular Veins.

There are two jugular veins on each side of the neck. The external jugular veins are just beneath the skin and convey the blood from the external portions of the head and neck to the heart, while the internal jugular veins carry the blood from the lateral sinus to the heart.

TOO FAT?

Many reduce 10 to 20 lbs., or more. Obtain KOREN (pronounced Loren) at any drug store, or write for free brochure to KOREN Co., P.O. Box 1, New York. Success obtained by best method. No pills, no thyroid, no starving, no tedious sweating. Outfitting easy, rapid, reduction, improves health, promotes efficiency. Look younger! ADD YEARS TO YOUR LIFE! Become thin and remain so! The Altoona Tribune has the following interesting comment on the Brines case which terminated under unusual circumstances at Philadelphia last week:

Most persons who were interested in the case of William P. Brines, indicted on the charge of murdering Elmer C. Drewes, were doubtless much astonished by the withdrawal of the case from the jury and the freeing of the accused by order of the trial judge. The counsel for Brines is quoted as saying that if the young man will take his advice he will never be released from the seal of silence which has been imposed on him regarding the mysterious case. Certain public officials are quoted as saying that the so-called "third degree" has been placed in grave peril by the peculiar termination of this case. Should that turn out to be true the country might well be congratulated. We are well aware that all police officers and some other persons are strongly attached to this process of bringing an accused person to confession, but it is outside the realm of justice and is a flat violation of the ancient law which goes to great lengths in the effort to protect the rights of the innocent. A couple of resolute hacklers will generally be able to persuade a weakling to con-

form to any crime on one calendar if they keep at it long enough.

It is impossible to weave a web of circumstantial evidence against a perfectly innocent man. We recall a case in this county years ago. A display window in an Eleventh avenue clothing house was broken by a robber who carried off an armful of clothing. He was met by a railroad caller who next day identified a young man of the city with the crime. He was arrested but insisted upon his innocence. The family was about to remove from the city and most of their goods were packed. Hence, according to the mother of the lad he had slept in her room on the floor on the night of the robbery. The other man was positive and it seems likely that the young fellow would have been sent to the penitentiary had not the actual criminal been caught, and that by sheer accident. On the other hand, a Huntingdon county murderer who killed a half dozen persons was convicted on circumstantial evidence entirely and protested his innocence to the last. He was swung off, but the rope broke and after he had recovered from the shock the assassin broke down and made a complete confession, corroborating most completely the theory of the commonwealth.

The Ant's "Parasol."

The so-called parasol ants of Brazil get their name from their habit of marching along in single file, each one with a piece of green leaf held over its head. These scraps of leaves are taken to underground chambers, well chewed, and allowed to ferment and decay in a mass, through which the mycelium of a fungus soon begins to run in white threads. When little mushroom buttons have started to develop the workers bite them off and feed them to the baby ants.

These Nettles Deal Death.

Any species of nettles is unpleasant enough to handle roughly, but some of the foreign ones are most formidable plants. Several of the East Indian forms are truly dangerous, for, after the first itching sensation has passed away it is often followed by that of hot irons being rubbed on the flesh, and the pain increases to such an extent that after hours—and sometimes days—the patient is seized with symptoms like those following influenza and lockjaw, while sometimes death results.

Bird Film Artist.

New York has a bird which has started on a successful film screen career. He is a cockatoo called Cocoa. His beautiful white feathers attracted the attention of the director of a large film company, and now he has a job appearing in all scenery where birds are needed. He gets a good salary.

Dream Evidently Impressed Him.

St. Paul's cathedral is cracking up a bit, but to the average intelligence it is at least as "safe as houses." A city man whose place of business is in the shadow of the cathedral is not so sure about that. He had a vivid dream in which he saw the vast building crumble up and demolish all the adjoining property in its fall. So disturbed was his mind as a result that he at once went to an underwriter and took out a policy which will cover his loss if the mighty edifice collapses!

For a New Umbrella.

Before using a new umbrella inject a small quantity of vaseline into the hinge portion of the frame. If put on carefully the vaseline will not spread and is a sure preventive against rust. Also, always stand wet umbrellas on their handle to dry. This allows the water to run out of them instead of into the part where the silk and ribs meet, thus causing the metal to rust and the silk to rot—Good Housekeeping.

Absolutely Not Guilty.

Little Billy had been sent to his aunt's on an errand and told to return immediately. Billy remained one hour. On his return his mother said: "Billy, what is your object in staying at auntie's when I told you to come right back?" Billy replied: "Object, what do you mean object, why, I never even took it with me. I left it home in my tool box."

Income Tax Expert At Clearfield Trust Co.

Last year hundreds of Clearfield people took advantage of the opportunity to meet the Government Expert at this bank.

This year we again tender the use of our Banking Room and again a representative of the Income Tax Bureau will be here

For the Entire Week Ending
February 5th, 1921

to help you make your report—and take your acknowledgment thereto.

We hope all persons who have Income Tax Reports to make out will present themselves early. If you have already made your report you should at least have it approved; it may save you much trouble later.

Remember there is no charge made by anyone for this service.

The
Clearfield Trust Co.

[National Crop Improvement Service]

EVERY farmer should be urged to build storage room on the farm. There are quite a number of types of buildings which will protect corn and keep it in good condition. They must have a tight roof and be slatted in such a way that snow and rain will not drive in, and yet provide for ample ventilation. Great care should be taken to build out the rats with concrete foundations and wire screen placed in such a manner that they cannot gnaw their way in. The corn should dry in the shock so that it will keep in the bin. Nothing is as cheap and good as sunshine to dry grain. All kinds of grain will keep much better in small bins on the farm than in large bins in elevators. Farmers' elevators of good capacity are being urged by the farm bureaus in every neighborhood," says Mr. Frank Baackes, vice president American Steel and Wire company.

"Many of them are being equipped with driers. They plan to market as the consumer needs the grain and no faster, and it is to be controlled and financed by the farmers under their plan."

Their idea is to store their crops on the farm and in the terminal markets where millions of bushels of space are available at about two cents per bushel a month, provided they are certain that they will profit by so doing. This is a large undertaking, which may or may not succeed. They will not lose sight of the fact that they have a worldwide competition and that it is a comparatively easy matter to import grain from other countries.

The chief value of the farmer's plan is that they will standardize their business and see that it is adequately financed."

Pillsbury Flour Mills Co.

Will have a lady demonstrator at our store this week to show you that good cakes can be made from "Pillsbury Pan Cake Flour."

REPORT OF JOHN A. STOCK

Desertion-Probation officer.
From January 1, 1920 to January 1, 1921.
The following report is respectfully submitted:
Number of cases in which I was consulted 219
Number of desertion and non-support cases in which warrants were issued 36
New F. and B. cases 27

Total number cases 282
Of the 36 cases in which warrants were issued, 23 were heard by the court.

It is the counseling in my office and the many F. & B. cases that increase my office work and make it very heavy, as the Court and District Attorney understand that each F. & B. case remains with me for fourteen years and during the past year I have been relieved of one case by the death of the child.

Collections in desertion and non-support cases and for the support of illegitimate children for the year 1920 amounted to \$12,094.79.

Year	No cases	Collections
1914	95	\$ 719.00
1916	157	3194.28
1918	129	6076.07
1920	282	12094.79

JOHN A. STOCK
Desertion-Probation Officer

MASONIC GROWTH HEAVY IN GREAT BRITAIN

London, Feb. 1.—Three times as many Masonic lodges were instituted in 1920 in England and those parts of the dominions where the United Grand Lodge of England has jurisdiction, as in any of the previous seven years, according to a report just made public here. Similar increases were announced by Scottish and Irish Grand Lodges and Chapters.

Freeman's Hall, the Craft's London headquarters, has become too small for the demands made upon it, and the return from India of the Duke of Connaught, the grand master, is awaited for the completion of a big extension scheme including a new Masonic temple and offices to be erected as a memorial to members who fell in the war.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't say stuffed-up and miserable.

Gazette-Times News

Flegal's Store News

Thank you, Clearfield Clothing Buyer for last week's trade. We think last week one of our Top Mark successes in Clearfield—SALES LAST WEEK were quite a handsome GAIN over same week 1920. Why should we not be proud and happy with such

a result. Think of the difference in business conditions now and then—think of the advertising in town last week and a year ago, and in spite of every unfavorable condition our sales for the week are larger than a year ago. Thank you.

Remember our prices are LOW—MARKED DOWN TO STAY DOWN—CLOTHING IS CHEAPER and will remain cheaper every day of the year, at our store. Don't be stampeded, don't get in a hurry—buy what you want when you want it—this week, next week or next month but always at our same low price. Our goods are all marked plain English at lowest market price and will never be any higher. Clothing may be scarce a little later but not for long. Suits at \$20.00 to \$50.00 or no suits at all is our motto. Earn all you can, save all you can and if you must part with some cash for clothing—don't send it out of town, keep it in Clearfield and your money will help to make Clearfield a better place to live in.

Money spent outside the town is money lost in your town forever—and you are the loser for ANY CLEARFIELD STORE can match any MAIL ORDER HOUSE or other city store on SAME GRADE OF MERCHANDISE. Think it over and you will say Amen.

Remember we have the lowest prices in town when quality, style and workmanship is considered.

Remember Suits, Overcoats and Furnishings for Men and Boys at FLEGAL'S are not only CHEAPER but BEST STYLES, BEST FABRICS and BEST TAILORING. All guaranteed by the MANUFACTURERS and by OURSELVES. Don't be excited, don't be in a hurry—buy it only when you need it—BUT BUY it at FLEGAL'S.

H. J. FLEGAL & SONS

Trapped.

No "National" in Title.

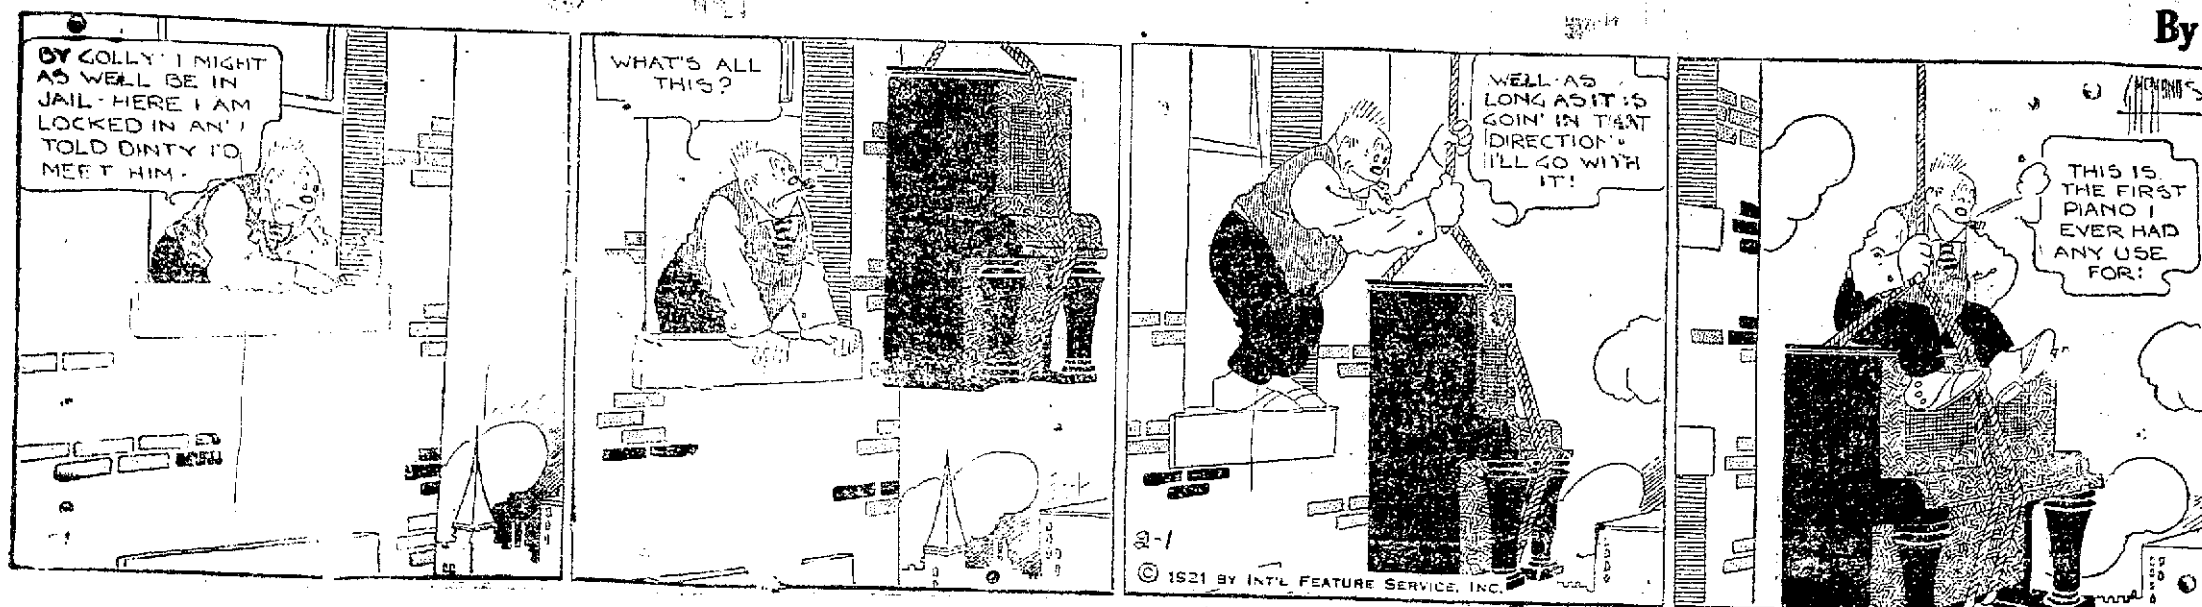

There is now only one national bank in the United States which does not have "national" as a part of its name. It is the Bank of North America of Philadelphia. A special act of congress is required to permit a national bank to operate as such without indicating the fact that it is a national bank in its name.

OUT OF THE RACE

When a person wakes up with a stiff back, has pains in muscles, aches in his joints, or has rheumatic twangs, he lacks ambition and energy and cannot do his best. If you feel out of the race, tired and languid, or have other symptoms of kidney trouble, you should act promptly. Foley Kidney Pills help the kidneys do their work and get out of the system the poisonous waste matter that causes so much trouble. They give relief from sleep disturbing bladder disturbance.

The naturalist O'neff kept goldfish for three years in absolute darkness taking care to give them plenty of room and plenty of food. The result was total blindness; even the rods and cones of the retina disappeared.

Monarch's Mummy Finally at Rest.
The mummy of the celebrated Egyptian king Ramesses II. reposes in the Egyptian museum in Cairo. The mummy was first interred at Bubastis, and was subsequently concealed from grave robbers in the shaft at Deir el Bahi, where it was found in 1881, and later removed to the museum mentioned.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

The officers of the Pine Grove farmers institute request us to announce that all who want to attend are invited to bring baskets and spend the whole day. It will be a sort of old fashioned basket picnic and general good time. Take your basket and stay for all the sessions.

The farm bureau has arranged to get a car load of Dibles Rural Russet potatoes from Potter county Pa., this coming Spring for seed. These potatoes are disease-free and come from high yielding fields. They are put up in 150 pound bags and will cost about \$2 per bushel, delivered in Clearfield. A number of orders have already been received but we still have some left. Any one who is interested in good seed potatoes should get in touch with the county agent at once.

POSSIBLE TO DOUBLE STATE POTATO YIELD

One of the most interesting facts brought to the attention of the thousands of farmers who attended the fifth annual farm products show at Harrisburg last week was that the potato yield of Pennsylvania could be grown on half the acreage now planted if disease free seed and spraying were used by all growers in the state. In other words, the yield could be doubled by the use of care and attention to this important crop. E. L. Nixon, extension plant disease specialist at the Pennsylvania State College, gave this information from figures gathered during the seed and spraying demonstrations of the past year. Clean seed and spraying combined increased the yield by over 58 per cent. Disease-free seed bettered the average yield by 66.7 bushels on over 500 farms, and spraying gave an increase of 74.7 bushels on 6,193 acres. This combined increase was referred to by Prof. Nixon as "the other half of potato growing."

Despite the upsets that have come in the path of the apple growers of the state during the past season, Dr. S. W. Fletcher, head of the State College horticultural department, said that the real grower with his heart in the work can look to the future with confidence and receive a fair return for his labor. He advised against single crop farming in Pennsylvania. Other State College speakers at the various association meetings included Dr. C. R. Orton, plant pathologist, who urged a nation-wide conference of seedsmen, plant breeders and pathologists for the purpose of reducing the disease-carrying properties of seeds. Dr. William Frear, vice director of the experiment station, W. H. Tomhave, H. C. Kandel and other department heads also gave timely information.

POULTRY WEEK AT STATE COLLEGE

March 3 to 10, 1921

One week of poultry instruction, mostly practice, arranged primarily for students taking correspondence courses, though open to any one in the state interested.

MRS. M. STETELY THOMPSON

Mrs. Margie M. Thompson, wife of M. Stetely Thompson, who died at her home on Pine street Monday morning, January 31, at 3:40 o'clock was the daughter of Levi S. Hepburn, of Granpian, and was born in Granpian 34 years ago.

She was united in marriage with M. Stetely Thompson, formerly of Hollidaysburg, some 10 or 12 years ago. Nearly all of her married life was spent in Clearfield, where she possesses a wide circle of warm friends who sympathize deeply with her loved ones in their sad bereavement.

Shortly before Christmas time Mrs. Thompson suffered an attack of tonsillitis, quinsy later developing. Other complications ensued and despite the best of medical attention and most tender nursing the end came as above stated.

The deceased was a consistent Christian woman, a member of Class No. 17 of Trinity Methodist Episcopal church and took a great interest in the work of the class.

She is survived by her husband and one daughter, Monetta Her father, one sister, Mrs. Etta Rowles and two brothers, Clark and H. B. Hepburn, all of Granpian, survive her.

The body was taken to the home of her sister in Granpian this afternoon and the funeral will be held from there Thursday afternoon at 2:30 o'clock Interment in Friends cemetery.

Instructors
H. C. Kandel, Professor of Poultry Husbandry.
T. B. Charles, Instructor of Poultry Husbandry.
H. D. Monroe, Assistant Professor of Poultry Husbandry Extension.
L. W. Steelman, Instructor in Poultry Husbandry Extension.
D. M. Gray, Assistant in Poultry Husbandry Extension.

General Plan
These exercises have been arranged to furnish a week of practical instruction in poultry work, with special reference to the needs of correspondence course students. Other residents of the state who are interested will be admitted but all should have some prior knowledge of the subject. The exercises are intended to furnish practice which cannot so readily be given through correspondence. The entire Poultry Plant of the College will be used for the work. This includes houses of various kinds; several hundred laying White Leghorn hens and pullets; some of the best record Barred Rock hens in the world; breeding and exhibition flocks of the leading breeds of poultry. The faculty of the Poultry Department and the staff of the Poultry Extension Division will devote the week of this week to instructing the students.

Program
The following is the tentative program which is subject to change as conditions may arise.

Setting up and adjusting incubators.
Setting up and adjusting coal burning brooders.
Computing rations and mixing feed for chicks and laying hens.
Candling and grading eggs.
Selection of eggs for hatching.
Dry picking fowls.
Drawing fowls.
Culling for egg production.
Selection of breeding stock.
Diagnosis of poultry diseases.
Preparation of fowls for shows.

A nominal registration fee of \$1.00 will be charged partially to cover the expense of material used.

Room for the week may be had at \$2.00 to \$3.00 when two room together, or \$4.00 to \$5.00 when a student rooms alone.

Board costs \$6.50 to \$7.50 at boarding houses. A number of good restaurants furnish meals a la carte.

If you can attend, kindly sign the attached blank and return to us as it is desirable to know how many will be present. Address

T. I. MAIRS,
Director of Correspondence Courses in Agriculture and Home Economics State College, Pa.

I wish to be enrolled for the Poultry Week at State College, March 3-10, 1921.

Preparedness.

One of our eminent and doubtless reliable statisticians announces that there is only one chance in 29,980 that one's house will ever burn down and yet we suppose lots of girls who would be much more comfortable in routing flannel nightgowns are wearing their crepe de chine ones regularly, in the possibility that it might.—Ohio State Journal.

Coconuts as Money.

Coconuts are the common form of exchange among the natives of the Nicobars. For instance, a box of matches is worth 20 coconuts, while for needles the price is one coconut each.

Natural Result.

"Some men are helpful when it comes to meeting their obligations," remarks an exchange. This may be because they are financially shy.—Boston Transcript.

SULPHUR CLEARS

ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema can be quickly overcome by applying a little Mentho-Sulphur declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

Gossip for Tonight's Tea Table

Mr. and Mrs. Fred Maisch entertained the stork last evening and a fine big boy baby has been left in their care and keeping as a result of the visit.

Mrs. H. P. Gulnae and son, Dean, who have been visiting at the home of the former's sister, Mrs. D. R. Woolridge, for the past two weeks, returned to their home in Ridgeway this morning.

Little Miss Alice Edminston, who had her tonsils and adenoids removed last Saturday, is getting along very nicely.

James Weber, who has been visiting his parents here for the past few days, returned to State College yesterday to resume his studies.

Mrs. W. T. Hinkle and Miss Estelle DeViney have returned from spending the past few days in DuBois.

Miss Virginia Sutter returned to her home in DuBois last evening after spending the week-end with friends here.

Mr. and Mrs. Merle Fink, of Kent, O., are visiting at the home of the latter's parents, Mr. and Mrs. John Murray, Park avenue.

Henry Krebs was called to his home in Corning, N. Y., last evening on account of the serious illness of his father.

John McGlynn, of Banion, spent yesterday with relatives here.

A. L. Forcey and daughter, Olive, of Bigler, spent today in town.

Born, to Mr. and Mrs. Ed. Leitzinger, Jr., at the Clearfield Hospital, yesterday, a son.

Squire John Scollins, of Houtdale, transacted business in town yesterday.

Mrs. George Meyers and daughter, Alice, of Woodland, were shopping in town yesterday.

Ashley Soult, of Woodland, spent yesterday in town.

Earl Smith left this evening for Pittsburgh, where he will spend several days.

J. W. Oxley has returned from spending the past week in Warren.

Miss Genevieve McGooey attended the dance in Philipsburg last evening.

Mr. and Mrs. M. J. Kelly and Miss Jean Smith, of Curwensville, spent today in our town.

Breck Albert, of Woodland, transacted business in town yesterday.

Miss Virginia Moore, who has been visiting relatives here for the past two weeks, returned to her home in Pittsburgh this morning.

Miss Zola Stoughton entertained her Sunday school class on Monday evening.

Miss Margaret Shillen will spend this evening with friends in DuBois.

Mr. and Mrs. Jay Smith left today for Huntingdon, where they will make their home.

Contractor H. L. Connelly is confined to his second street home on account of a ruptured vein in one of his legs, a recurrence of a previous injury.

Lee Williamson, who was operated on for appendicitis, has been removed to his home and is getting along nicely.

Joseph Lettman left last evening on a business trip to New York and Philadelphia.

A Crowning Incident.

On a Cornish tombstone a rather perplexing version of Proverbs 12:4, concludes the announcement of a lady's death: "A virtuous woman is to her husband." Space did not permit of "a crown" being cut out in full, so an ingenious stonecutter substituted this excellent abbreviation.—Glasgow Herald.

Childish Reading.

The child worships heroes and accepts the pointed word as an oracle. Plausible action, for him, is not confined to the four walls of his home, to the street that he knows. And books in the first reading years do not seem to reflect comment upon, or make amends for life. The tale the unwinds from their pages is more real than reality. Never again, for most of us, will come that complete immersion in the atmosphere of a story that is the even mildly intelligent child's inalienable birthright.—Exchange.

Trees and Temper.

Some men when they held their temper went out and furiously chopped down a tree. But everybody hasn't a tree handy.

The Great Semi-Annual WHITE SALE Continues

The Newest of Gage Hats

We are showing Gage Hats in an assortment of the newest styles, colors and materials particularly adapted for the Spring Season of 1921.

The millinery dollar here reaches the limit of its purchasing power, for in addition to securing hats of unquestioned value and of a high grade of material and workmanship, you get that assurance of authoritative style which adds so greatly to the value of any purchase and which attaches to any model bearing the Gage label.

The selection we have received includes smart styles in the close-fitting and medium brim models that are so popular for early Spring wear.

Some of the hats are made from Gros de Londres and silk combined with braids. There are also fancy straw and silk hats trimmed with the new cellophane pins and with ornaments and flowers. Bright colored flower trimmed hats predominate. Kandee Cloth, a new fabric particularly adapted for Spring, is specially featured. The colors represented are the newest of the Leather shades, including burnt orange, the pheasant shades and golden brown; also coral, henna, navy, brown, delft blue and black, all popular, seasonable and wearable. Come in and let us show you a line of hats whose world-wide reputation is firmly established.

A. W. LEONARDSON CO.

Market Street, Clearfield, Pa.

True Greatness.
A man's true greatness lies in the consciousness of an honest purpose of life, founded on a just estimate of himself and everything else, and a steady obedience to the rule which he knows to be right.—George Long.

One Thing About Luck.
"Sometimes a man is lucky," said Uncle Eben, "same as a fisherman catches an eel. His luck makes him so much trouble he 'most wishes he didn't have it."

Attenuated Elitism.

Put Her on the Ball Team
From a novel: "With a sudden frenzied motion of her hands she caught her breath."

And American! ... be president of the United States some day but when convention time rolls around there are mighty few eligible candidates.

A TRIAL WILL
CONVINCE
YOU.

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Chamberlain's Tablets
